“ *My sympathy to all of Bobbie's family and close friends. I worked with Bobbie over the years when she was a teacher and diagnostician as well as an association rep. She was a strong advocate for students as well as fellow teachers. As a colleague, she was professional and 'had your back.' Her compassion and unique sense of humor were personal traits that stood out.*

“ Jason and Robin: Many thoughts and prayers for your family during this time. I had the pleasure of working with your Mother at Lancaster Central for a number of years.

It takes a very special person to work with special education students and your Mother had those attributes.

“Your family had my deepest sympathy and prayers. I am one of Bobbi's former students. I received her help my 4 & 5 grade years of school. She showed me things I still use and remember today. Mostly just because I dyslexia does not mean a cant learn it just means I need to learn a different way. Once i had a daughter of my own and went to a case conference, i was very happy to see Bobbi. My daughter was always little Tammy to her.

Her memory will live on in all the lives she has touched during her career. I am very greatfull she was in my life.

Prayers of peace for all who loved her,
