In this latter position he participated as a content provider in many seminars for health care professionals and families of and patients suffering from MS while facilitating an MS Support Group. “ *The world is a better place for Ted having been in it. He touched so many lives in such a positive way, his laughter and humor could light up a room and he was so very kind! This world needs more people like him, his absence leaves a big gap, all of us that loved him need to take a page from his book and be kind always. I have so many fun memories of Ted and will cherish those memories always. He did have that "Sweeting" side, don't argue with him.....he was mostly right and if he wasn't you still weren't going to win an argument with him. I remember he and my Dad in a discussion one night about politics, he followed Dad into the bedroom, when my Dad got in bed and pulled the covers up Ted and he were still discussing with a lot of heat their opinions. It was quite the picture, Dad in bed all tucked in and Ted leaning over him, discussing their opinions. The next day Ted and I laughed about it until we cried.*

On one of our visits to Indiana, we got into an discussion, which ended up being Bonnie and I (both of us are only children) against Buddy and Ted. I can't even remember what it was about, but it was heated. Ted's sister Darlene stopped by and heard our discussion. She got so upset she called Aunt Helen to tell on us, Darlene thought both of our marriages were doomed. We had a good laugh about that one too, when we heard what Darlene had told Aunt Helen. When we visited last summer we relived those stories and still got a kick out of them.

*His boys and grandsons meant the world to him he glowed when he talked about them. I am so thankful that he had Bonnie by his side for his walk through this life.
