“ J. J. and Jordan, I am so sorry to learn of your father's death. When I didn't get his card and Christmas letter the day after Thanksgiving (he always sent his early so people would reply in their letters to any questions he might have) I worried about him. I was your next door neighbor on Rue Michael when you boys were young. You might remember my son Larkin who built a playhouse between our houses. After you moved away I heard from church members about your beautiful mother's illness and death. Many years latter I was a speaker at a genealogy conference in Fort Wayne and a man extended his hand and said "Hello, I'm Tom Stogsdill. I was your neighbor on Rue Michael," He needed help finding an ancestor's birth place in Germany. We corresponded frequently and with the help of a German genealogist, we found it. I always looked forward to his annual letter and the news about you and his grandchildren. I send you my sincere sympathy,

“ I am deeply saddened by this HUGE loss. Thomas was a friend to my entire family when we moved to Indiana and became members of the Decatur branch. I was in the 7th grade at that time. My family later moved back home to Utah and Thomas stayed in touch with my mother for many years, & sending Christmas cards after my parents got divorced. After my mother died, Thomas added me to his Christmas card list and sometimes it was the ONLY Christmas card I got and he was always so genuinely interested in how everyone was doing. I knew that the year, I didn't receive a card would be the year that Thomas would no longer be with us. That was this year I didn't receive one and found this obituary. I am in complete tears as I write this and he will be sorely missed. May he rest in peace.

“ I always enjoyed Dr Tom- years ago he needed IV's and I was his HHC nurse- then later I would see him at Chr Care when I would go pass water to the residents and he was reading to the residents. More recently I interacted with him as he was a resident at Chr Care- we will miss this caring and serving man that had a great smile. Sincerely Carol Klopfenstein

“ Have such sweet memories of Tom being dear friends with my parents and him being genuinely interested in me and my family and being such a grand example of loving his Savior and being in service of those he came in contact. What a blessing to have known him! Rest in peace dear friend, and enjoy reuniting with those on the other side.

“ I had the privelege of working with Dr. Tom at the former Panos Free Clinic. He was on the Board of Directors and I first served as a volunteer then became assistant coordinator of the clinic. He cared so much for the people who needed the services there and was so very KIND to everyone. I was also a member of the Joy Pleasers Clown Ministry and Dr. Tom thought that was great and one day when he was scheduled to go out to Christian Care Retirement Center to read to the residents, he asked if I would go along with him as the clown. He was to drive me there and I would visit while he read, then he insisted on treating me to lunch at Richards. What a time it was and he seemed so pleased to be escorting the clown and of course many knew each of us. He was such a nice and caring man to everyone and my life is much richer to have known Dr. Tom and have the opportunity to work with him. Rest in peace, my friend and at last you have reunited with your dear wife. Condolences to the family.

“ Dr. Thomas was a very special person in my life. We met after I published an article in the *The Fort Wayne Journal-Gazette* in 2006 on the Bible and Science. He wrote to me about my article and we have been writing to each other ever since. We soon corresponded by email which was a god-send for both of us. We both were very interested in science and Christianity as well as medicine. I was teaching at the Medical College of Ohio then. Thomas was also an author and would also help me with my writing. He was an excellent editor and would often catch things I missed. He also did introductions to several of my books as well as challenged me on a few of my ideas. As a long-time subscriber to several science magazines, he was up to date on many aspects of science which helped to stimulate our conversations. We both had major reservations about many evolutionary claims and reinforced each other when these concerns surfaced in the scientific literature. It was also clear that he missed his wife enormously. He also loved his family, which he kept me updated on. I have now published 60 books and close to 1,800 articles could have not achieved this without Dr Stogdill's help.

“ Condolences to Tom's family. I am a distant cousin as my mother was a Stogdill. At one time Tom and I exchanged letters regarding genealogy, and we also met at the former Dutch Mill a few times for "cousins' reunions. I always enjoyed our talks/meetings.
